PROJECTS

PASSWORD GENERATOR

Deployed Site: https://smoyamendez.github.io/password-generator/
Repository: https://github.com/smoyamendez/password-generator

- This project uses HTML, CSS, and JavaScript to create a secure password that users are able to customize with length, character types and letter casing.
- Role: Sole Author
- Tools: HTML, CSS and JavaScript

COVID CORRELATION CONSOLE

Deployed Site: https://smoyamendez.github.io/covid-correlation-console/
Repository: https://github.com/smoyamendez/covid-correlation-console

- A web application where users can go to retrieve accurate statistics to compare different demographics and stringency levels and how they correlate with COVID-19 statistics.
- Role: Supporting JavaScript and Project Coordinator
- Tools: HTML, CSS JavaScript, Foundation Framework, APIs, JQuery

PokeBaller

Deployed Site: https://evening-oasis-15758.herokuapp.com/login
Repository: https://github.com/smoyamendez/PokeBaller

- A tool for digitally tracking Pokemon trading cards where users can add digital cards to their collection and view all available cards for each Pokemon.
- Role: Front End Developer
- Tools: HTML, CSS JavaScript, Bootstrap Framework, APIs

EXPERIENCE

FREELANCE WEB DEVELOPER: *Remote | Dec 2019-Current*
- Work with clients to outline a basic wireframe for the appearance and styling of their site.
- Create a flowchart of the user experience.
- Implement coding languages and server platforms to achieve a final product.

SHUTTERFLY – Level 2 Machine Operator: *Fort Mill, SC | Oct 2020-Jan 2021*
- Performed proper maintenance for Horauf casemaker, mitigating risks and ensuring all components ran smoothly.
- Consistently checked finished products to confirm that they met the company's quality standards.
- Ensured production goals were met, and uptime and downtime was documented properly.

EDUCATION
